

# Support material #6

Unsafe energy use images

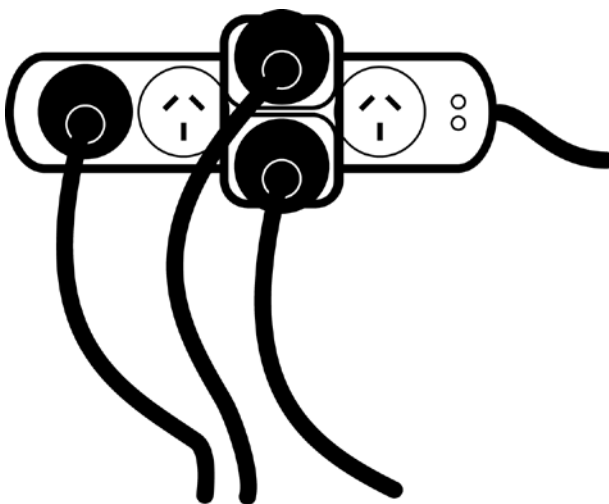

Section 2: Activity 3  
Section 4: Activity 2

Here are some examples of unsafe energy use.

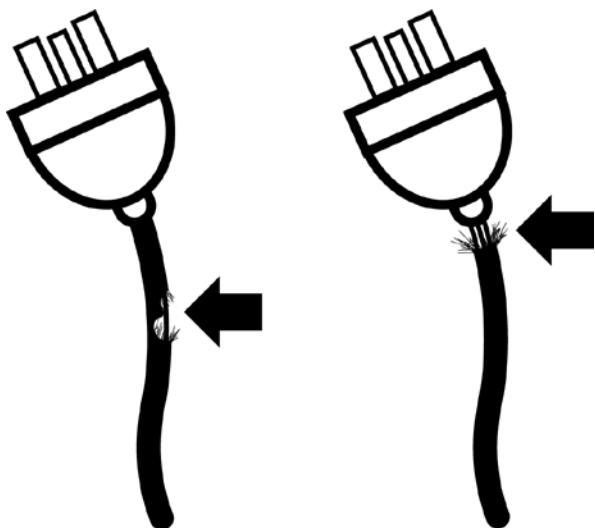

Cord across walkway causing a hazard

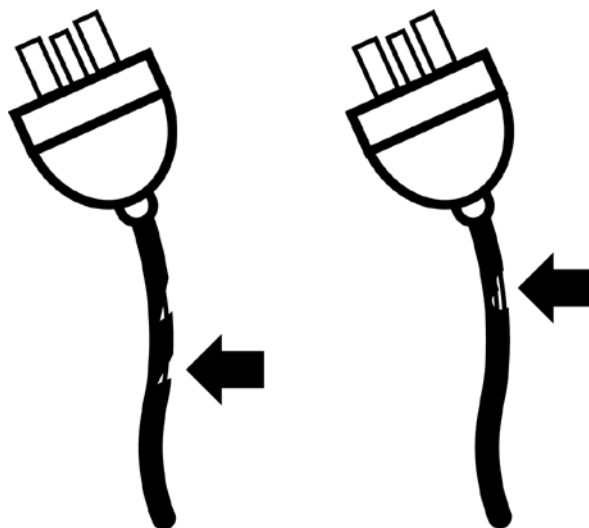

Overloaded powerboard and 'piggybacking'

Frayed cords – exposed wires

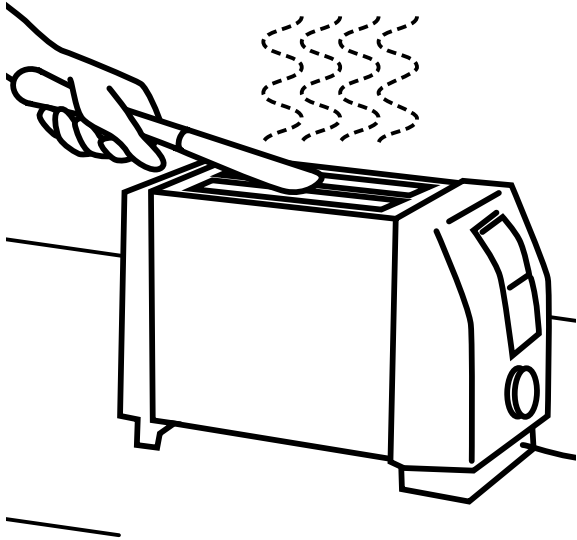

Plastic cords damaged via abrasions and melting

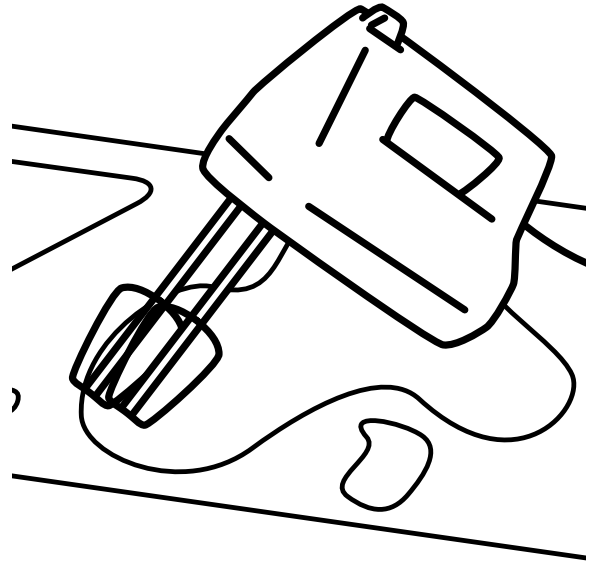

Support material #6: Unsafe energy use images (continued)

Knife in the toaster

Appliance sitting in a puddle of water

Kettle cord draping near the sink
