

Origin3000 Solar System Panel Specifications

Your Origin system will be supplied with one of the following sets of panels:

Manufacturer	Mono Or Poly	Size (Watts)
Suntech	Mono	190
Suntech	Poly	220
Trina Solar	Mono	190/195
Canadian Solar	Poly	215/220

Please note all solar panels supplied are CEC accredited and compliant with IEC/EN61730 and IEC/EN61215 or IEC/EN61646.

The choice of panels will be at the **sole discretion** of our installer subject to such matters as stock availability.

Please see the following specification sheet for further details and panel specifications.

CS6P

190/195/200/205/210/215/220PE
e-Module

On-grid Module

CS6P-PE is a robust solar module with 60 solar cells. These modules can be used for on-grid solar applications. Our meticulous design and production techniques ensure a high-yield, long-term performance for every module produced. Our rigorous quality control and in-house testing facilities guarantee Canadian Solar's modules meet the highest quality standards possible.

Customer Values

- **Economical solar modules** with best performance-to-price ratio and fast return of investment (ROI)
- **Environmentally friendly production**, non-toxic and no potential environmental and legal risks

Key Features

- 6 years product warranty (materials and workmanship); 25 years module power output warranty
- Industry leading plus only power tolerance: +5W (+2.3%)
- Strong framed module, passing mechanical load test of 5400Pa to withstand heavier snow load
- The 1st manufacturer in the PV industry certified for ISO:TS16949 (The automotive quality management system) in module production since 2003
- ISO17025 qualified manufacturer owned testing lab, fully complying to IEC, TUV, UL testing standards

Applications

- On-grid residential roof-tops
- On-grid commercial/industrial roof-tops
- Solar power stations
- Other on-grid applications

Quality Certificates

- IEC 61215, IEC 61730, UL 1703, CEC Listed, JET, CE, CQC
- ISO9001:2008: Standards for quality management systems
- ISO/TS16949:2009: The automotive quality management system
- QC080000 HSPM: The Certification for Hazardous Substances Regulations

About Canadian Solar

Canadian Solar Inc. is one of the world's largest solar companies. As a leading vertically-integrated manufacturer of ingots, wafers, cells, solar modules and solar systems. Canadian Solar delivers solar power products of uncompromising quality to worldwide customers. Canadian Solar's world class team of professionals works closely with our customers to provide them with solutions for all their solar needs.

Canadian Solar was founded in Canada in 2001 and was successfully listed on NASDAQ Exchange (symbol: CSIQ) in November 2006. In 2009, Canadian Solar's full year shipment was 325.5 MW with a module capacity of 820MW.

190 Watt

MONOCRYSTALLINE SOLAR MODULE

Features

High module conversion efficiency (up to 14.9%), through superior manufacturing technology

Guaranteed 0-5W positive power output tolerance ensures high reliability

Proprietary Gallium-F22 doping process dramatically reduces initial light-induced degradation to <1%, thus delivering better power and performance over time

New Jumbo cells with 4% larger solar cell area produce more power per module

Entire module certified to withstand high wind loads (2400 Pascal) and snow loads (5400 Pascal) *

Trust Suntech to Deliver Reliable Performance Over Time

- World's leading manufacturer of crystalline silicon photovoltaic modules
- Unrivaled manufacturing capacity and world-class technology
- Rigorous quality control meeting the highest international standards : ISO 9001: 2008 and ISO 14001: 2004
- Certification and standards: IEC 61215, IEC 61730, conformity to CE

Industry-leading warranty

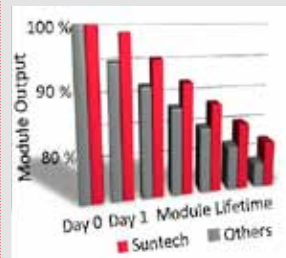

- 25 year transferrable power output warranty: 5 year/95%, 12 year/90%, 18 year/85%, 25 year/80% **
- Based on nominal power
- Warrants 6.7% more power than the market standard over 25 years
- 5 year material and workmanship warranty

* Please refer to Suntech Standard Module Installation Manual for details.

** Please refer to Suntech Product Warranty for details.

Patented surface pyramids enhance sunlight absorption by redirecting reflected light to other areas on the cell surface to be reabsorbed

Suntech cells feature a breakthrough process that replaces traditional boron doping with gallium doping. The effect of initial light-induced degradation is dramatically reduced, leading to greater power output over the entire module lifetime.

Graph is for illustration only and does not imply any guarantee of module performance. Please check warranty for details.

SUNTECH
Solar powering a green future™

225 Watt

POLYCRYSTALLINE SOLAR PANEL

Features

Guaranteed 0-5W positive power output tolerance ensures high reliability

Anti-reflective, hydrophobic coating improves light absorption and reduces surface dust

Three bus-bar design enhances cell reliability and reduces series resistance for large fill factor

Excellent performance under low light environments (mornings, evenings and cloudy days)

Entire module certified to withstand high wind loads (2400 Pascal) and snow loads (5400 Pascal) *

4.0mm thick tempered glass improves module durability

Trust Suntech to Deliver Reliable Performance Over Time

- World's leading manufacturer of crystalline silicon photovoltaic modules
- Unrivaled manufacturing capacity and world-class technology
- Rigorous quality control meeting the highest international standards : ISO 9001: 2008 and ISO 14001: 2004
- Certification and standards: IEC 61215, IEC 61730, conformity to CE

Industry-leading warranty

- 25 year transferrable power output warranty: 5 year/95%, 12 year/90%, 18 year/85%, 25 year/80% **
- Based on nominal power
- Warrants 6.7% more power than the market standard over 25 years
- 5 year material and workmanship warranty

Specially designed drainage holes and rigid construction prevent frame from deforming or breaking due to freezing weather and other forces.

Latest IP67 rated junction box improves module performance stability with enhanced thermal isolation.

TSM-DC01A

The **Comax** Solution

by TrinaSolar

Module can bear snow loads up to 5400Pa and wind loads up to 2400Pa

Guaranteed power output (0~+3%)

High performance under low light conditions (Cloudy days, mornings and evenings)

Optimized corners, for increased output up to 195W

Independently certified by international certification bodies*

Manufactured according to International Quality and Environment Management System (ISO9001, ISO14001)

The optimized corners of the cells used in our TSM-DC01A enlarge the module's energy generating surface by 4.2%. Additionally, each cell now has 54 gridlines on the top surface, which improves energy flow. Through these improvements, this module now generates up to 195W. It is the perfect size for residential and small commercial installations.

linear performance warranty

10 year product warranty
25 year linear power warranty

Founded in 1997, Trina Solar is a vertically integrated PV manufacturer, producing everything from ingots to modules, using both mono and multicrystalline technologies. By the end of 2011, the company will have a nameplate module capacity of 1.9GW. Trina Solar's wide range of products are used in residential, commercial, industrial and public utility applications throughout the world.

Only by matching an efficient cost-structure with proven performance will we, as an industry, achieve grid parity. And at Trina Solar, we have both.
