sunpro[®] solar gas

Why you should choose a Dux Sunpro[®] solar gas system

- Gas boosted solar is the most efficient type of hot water system available
- Low megajoule consumption burner, requiring only half inch gas pipe
- Mains pressure hot water, unlike most other gas boosted solar systems on the market
- Intelligent patented Hotlogic[®] controller optimises lowest cost energy supply
- Patented Panel Management System protects the collectors from overheating in summer and provides frost protection in winter
- Zero water wastage during start-up cycle
- High efficiency polyurethane insulated storage tank
