### You told us what you wanted from your bill

Sometimes when you get your electricity bill you only want to know how much it is and when it is due. Other times you may want more information. Your new bill is designed to give you both and more.

It also features a new graph to show how much greenhouse gas was produced by your electricity consumption. Or if you have chosen our environmentally friendly electricity option, it will show you how much greenhouse gas emissions you have saved.

We hope you find your new bill easier to read and that it saves you time. It is already saving trees!

Nearly all customers will now receive their bill on one page only.
