

# TCFD disclosure

Climate change remains one of the most significant challenges facing companies worldwide and a high priority for energy companies given energy production is a major source of carbon emissions.

Origin unequivocally supports the United Nations Framework Convention on Climate Change and the Paris Agreement, and actions consistent with ensuring any rise in global temperatures is limited to well below 2°C.

We support the recommendations made by the TCFD and we set out here where our disclosures on climate-related risks and opportunities can be found in our 2020 Sustainability Report and other reporting documents.

TCFD recommended disclosure	Where to find more information
<b>Governance</b>	
Disclose the organisation's governance around climate-related risks and opportunities	
a) Describe the board's oversight of climate-related risks and opportunities	<i>Governance</i> section, pages 42-43
b) Describe management's role in assessing and managing climate-related risks and opportunities	<i>Governance</i> section, pages 42-43
<b>Strategy</b>	
Disclose the actual and potential impacts of climate-related risks and opportunities on the organisation's businesses, strategy, and financial planning where such information is material	
a) Describe the climate-related risks and opportunities the organisation has identified over the short, medium and long terms	<i>Energy and climate change</i> section, pages 13-16 Operating and Financial Review, section 7
b) Describe the impact of climate-related risks and opportunities on the organisation's businesses, strategy, and financial planning	<i>Energy and climate change</i> section, pages 13-16
c) Describe the resilience of the organisation's strategy, taking into consideration different climate-related scenarios including a 2°C or lower scenario	<i>Energy and climate change</i> section, <i>Climate resilience</i> , page 16 <a href="#">2°C and 1.5°C Scenario Analysis</a>
<b>Risk Management</b>	
Disclose how the organisation identifies, assesses and manages climate-related risks	
a) Describe the organisation's process for identifying and assessing climate-related risks	<i>Governance</i> section, pages 42-43
b) Describe the organisation's process for managing climate-related risks	<i>Governance</i> section, pages 42-43
c) Describe how processes for identifying, assessing and managing climate-related risks are integrated into the organisation's overall risk management	<i>Governance</i> section, pages 42-43
<b>Metrics and Targets</b>	
Disclose the metrics and targets used to assess and manage relevant climate-related risks and opportunities where such information is material	
a) Disclose the metrics used by the organisation to assess climate-related risks and opportunities in line with its strategy and risk management process	<i>Energy and climate change</i> section, <i>Decarbonisation commitments</i> , page 14; <i>Decarbonisation strategy</i> , pages 15-16
b) Disclose Scope 1, 2 and, if appropriate, Scope 3 greenhouse gas emissions, and the related risks	<i>Greenhouse gas emissions</i> section, pages 18-20
c) Describe the targets used by the organisation to manage climate-related risks and opportunities and performance against targets	<i>Energy and climate change</i> section, <i>Decarbonisation commitments</i> , page 14
