Email	<input type="text"/>	Licence no.	<input type="text"/>
Permission to connect ref. no. (from the distributor)	<input type="text"/>		

FEES, PROCESS AND TIMINGS

Fees

Origin does not currently charge fees for changing or removing a meter in NSW. However, if that has changed by the time we receive your completed form, we'll contact you to let you know the fees that apply. You can find more details about the current fees at originenergy.com.au/meterfees

Access to the property and meter

To get your work done, you'll need to give us clear and safe access to the property and the meter. Just so you know, if we don't have this, we'll need to reschedule the work for another day and fees may apply.

Process and timings

For information about what happens next and when it'll happen, head to originenergy.com.au/buildingindustry then click the **Electrician** link. From there, click the **NSW** tab.
