If you want to purchase or need a quote for an additional 60 months warranty (total 120 months), please indicate in the box below:

Please provide me a cost for 60 months extended Warranty

If you choose the extended warranty option, Clenergy will contact you with payment details, please note that the extended warranty will not take effect until payment is received.

## 5 Year Limited Warranty Conditions

**Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.**

**The benefits given by this warranty are in addition to other rights and remedies you may have under laws in relation to the goods or services to which this warranty relates.**

Congratulations on choosing your Clenergy Inverter. Please fill out the warranty registration form, make a copy for your own records and send the original to Clenergy, the address is given below. We will register your inverter to ensure that you are provided with prompt and professional service.

If any problems arise please contact the company you purchased your product from. Please retain a copy of the warranty registration form and proof of payment for any future warranty claim.

If you are unable to locate the details of your Installer, please contact Clenergy our details are listed below and we will endeavour to assist you.

The standard Warranty Period is 60 months and applies from the date the inverter is installed, for customers who have taken an extended warranty the period is 120 months. Your extended warranty information is sent to you once we have received the payment.

**Clenergy will replace or repair the unit during the warranty period if and subject to the following conditions:**

- The product does not perform in accordance with our specification.
- The unit fails during the warranty period as long as it is installed correctly by an authorised installer.
- During the warranty period, Clenergy will repair or replace the faulty unit if this is considered to be the most appropriate course of action.
- Any and all costs for repair or replacement outside the warranty period are the responsibility of the Customer.
- The customer is responsible for the costs to ship to our repairer; Clenergy will pay the return freight costs if you do not have this as part of your agreement with your supplier, your supplier can confirm if they cover this on your behalf.
- The customer is responsible for the cost to remove the faulty inverter from the installation and the reconnection once the repaired or replacement inverter is returned unless the customer has an onsite replacement agreement in place either with Clenergy directly or through your purchase arrangements with the supplier who provided your system.
- If Clenergy chooses to replace the faulty unit then the faulty unit will be replaced with an inverter that is of the same condition or newer than the customers original faulty unit.

- Cleenergy can provide an optional onsite replacement agreement for details and costs please contact your supplier or Cleenergy directly.
- For customers who have taken out an onsite replacement agreement with Cleenergy, we will cover the labour and transport costs.
- Where Cleenergy attends a site and finds that the inverter is not faulty, the costs for the visit will be payable by the customer, there is a charge of \$150.00 ex GST for the initial attendance and an hourly charge of \$150.00 ex GST including travel time.
- The replacement unit provided will be covered for the remainder of the warranty period applicable to the customers agreement.
- Cleenergy holds stock in Australia expressly for the purpose of warranty repairs or replacements.
- If there are any questions or concerns regarding the conditions of this warranty please write or email us at the address below.

### **The warranty does not apply if:**

- The Inverter warranty period is expired.
- Damage is caused by incorrect installation or use outside its design application.
- Damage is caused due to incorrect transportation
- If the warranty card has been altered or adjusted.
- The model No. and serial No. in the warranty card does not match the installed inverter.
- If the product seal is broken or has been tampered with.
- Damage caused by fire, natural disaster or abnormal voltages.
- Insufficient ventilation of the device.
- Incorrect installation, not done in accordance with our installation manual.
- Installation performed by non-accredited or unauthorised person.
- Unauthorised modification, testing or repairing

### **How to make a warranty claim.**

To make the claim You should always contact who you purchased your system through in the first instance, they will advise you of any extended level of cover you have in addition to your warranty, your warranty form should have the date of installation so you can determine if you are still under warranty. If you are unsure how to make a claim, or are out of the Warranty period or don't know who you purchased your Cleenergy Inverter through then contact Cleenergy Australia for support at the address below.

When making the claim you should provide to your service provider the serial number of your inverter along with the date of purchase/installation and the error message that will be displayed in the window located on the front of the inverter.

Claims can be made by phone or Letter or by emailing to ;

**Cleenergy Australia**  
**18/20 Duerdin Street**  
**Clayton VIC 3168**  
**Phone: 03 9017 6688**  
**Fax: 03 9017 6668**  
**Email: [service@cleenergy.com.au](mailto:service@cleenergy.com.au)**

- If you are unsure if it's your Inverter that is at fault, you should first contact your supplier who may be able to provide an initial assessment, if it's still unclear you should phone Clenergy on the number below or email us if that's more convenient stating the serial number of the inverter and the installation configuration if you know it along with the fault error which will be displayed in the information window of the inverter.
- If the Inverter requires a field service visit and you have a service agreement then Clenergy will arrange for the inverter to be serviced or replaced at no extra charge.
- If you don't have a service agreement then you will need to arrange to send the faulty unit back to Clenergy in Melbourne or to your nearest service point. The cost to remove from your premises and return to us is at your expense. Clenergy will replace or repair the unit and return it to you at our expense, you will have to have it reconnected by an authorised installer at your expense.
- The warranty covers the Unit but does not include any labour for removal and reinstallation therefore you should consider taking a service agreement either directly with your supplier or through Clenergy at the time of purchase.
- The warranty is for 5 years from the date of commissioning, the extended warranty provides an additional 5 years taking your cover to 10 years from date of commissioning and you are covered in accordance with the above.
- Onsite service agreements are paid annually if you choose to take it out.
- Clenergy will repair or replace the unit under warranty with an equivalent unit from our maintenance stock and the warranty will then continue up to the original date of expiration.

**Fax: 03 9017 6668**  
**Email: [service@clenergy.com.au](mailto:service@clenergy.com.au)**

## Warranty terms and conditions

These warranty terms and conditions apply to the following inverters:

### String inverters

- Fronius IG 15, 20, 30, 40, 50, 60 HV
- Fronius IG Plus 35, 50, 70, 100, 120, 150
- Fronius IG Plus 25 V, 30 V, 35 V, 50 V, 70 V, 100 V, 120 V, 150 V
- Fronius IG TL 3.0, 3.6, 4.0, 4.6, 5.0
- Fronius RL 5.0-3

### Central inverters

- Fronius IG 300, 390, 400, 500
- Fronius CL 36.0, 48.0, 60.0

## Geographical validity

These warranty terms and conditions are valid worldwide. However, they do not apply to Canada, the United States of America and Mexico. Separate warranty terms and conditions apply to these countries.

## Fronius manufacturer's warranty

The inverters listed above come standard with a manufacturer's warranty of 60 months from the date of installation. Fronius guarantees that your photovoltaic inverter will function correctly during this period.

## Extended warranty

An extended warranty can be purchased up to 6 months after the date of installation. Applications for an extended warranty after this date can be rejected by Fronius. The extended warranty only applies to the inverters listed above.

You can apply to extend the warranty period to a total of 10, 15 or 20 years for string inverters. For central inverters, the warranty period can be extended to a total of 10 or 20 years.

## Services within the warranty period

If a defect should occur within the agreed upon warranty period for which Fronius is responsible, Fronius has the option of

- repairing the defect at Fronius or onsite
- providing an equivalent replacement device or new device
- or having a trained Fronius Service Partner carry out these services.

## Transport

Fronius pays the transport costs for the inverter (by land or sea)

- into and within countries with a national Fronius subsidiary
- into and within countries of the EU (including the autonomous regions or cities of Spain and Portugal)
- into and within Switzerland
- between the respective national or nearest Fronius subsidiary and the retail site of the official Fronius sales partner from which the device was purchased.

Transport costs are not paid

- from or to EU overseas territories
- from, into, or within countries outside of the EU provided that there are no national Fronius subsidiaries there.

For return transportation, devices or components must be packed in their original or equivalent packaging.

## Fronius subsidiaries

As of October 2010, there are national Fronius subsidiaries in the following countries outside of the EU, Switzerland and the USA:

- Australia
- Brazil
- Canada
- Mexico
- Norway
- Turkey
- Ukraine

Current information about this can be found on our website at [www.fronius.com](http://www.fronius.com).

## When making a warranty claim, attention should be paid to the following:

The following are required as proof of your warranty claim: purchase invoice, serial number of the device as well as the commissioning log (transfer date, commissioning date, or report from the power supply company).

End customers, may wish to contact your installer who will, if necessary, get in contact with Fronius.

The procedure for a warranty claim must be coordinated with Fronius at the below address. This is the only way to ensure that the above mentioned warranty services will be provided free of charge for the warrantee.

When devices or components are replaced, the remaining warranty period will be transferred to the replacement device or component. This will be registered automatically by Fronius. You will not receive a new certificate.

If the remaining warranty period is less than one year, you will automatically receive a full year for the remaining warranty period for the replacement device or component.

## Scope and validity of manufacturer's warranty

The manufacturer's warranty is only valid for the inverter that is uniquely identified by the serial number. Other photovoltaic system components as well as Fronius system upgrades (e.g., plug-in cards) are not covered by the warranty.

Fronius DATCOM components (for system monitoring) come standard with a 24-month warranty from the date of installation.

## Exceptions to the Fronius manufacturer's warranty

Defects are not covered by the manufacturer's warranty if they are caused by the following:

- Non-compliance with operating instructions, installation instructions or maintenance instructions
- Errors during device installation
- Errors during device commissioning
- Damage during device transport
- Improper or incorrect operation of the device
- Insufficient device ventilation
- Tampering with the device by companies or persons not authorized by Fronius
- Non-compliance with safety instructions and installation standards
- Acts of God (storm, lightning strike, overvoltage, fire, etc.)

This manufacturer's warranty also does not cover damage to the inverter that is attributed to the other system components as well as damage that does not adversely affect the proper functioning of the inverter, e.g., "cosmetic defects."

SHIFTING THE LIMITS

The warranty does not cover travel and accommodation costs as well as onsite assembly and installation costs if they exceed the service reimbursement received by the installer performing the work from Fronius depending on the service and agreement.

Changes to the existing PV system, the building installation and the like, or any expenditure of time and the costs resulting from this are not covered by the warranty.

Due to technological progress, the possibility exists that a replacement or new device of similar value provided may not be compatible with the system monitoring or other components installed onsite (e.g., Fronius DATCOM). Expenditures and costs resulting from this are not covered by the warranty.

No compensation is provided for lost power that has not been fed into the grid or for energy consumption that does not take place and the like.

#### **Other information - Australia**

In Australia, this warranty is given by, and all Australian warranty claims should be directed to:

**Fronius Australia Pty Ltd, 90-92 Lambeck Drive,  
Tullamarine, VIC 3043, Telephone 03 8340 2900, Email  
pv-support-australia@fronius.com**

The benefits to the consumer given by this manufacturer's warranty are

in addition to other rights and remedies of the consumer that are stipulated by law, and which are not affected by this manufacturer's warranty.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

The general delivery and payment terms and conditions located on our website ([www.fronius.com.au](http://www.fronius.com.au)) under "Terms and conditions" are in effect unless these warranty conditions allow more favorable provisions.

Previously valid warranty conditions are replaced by these conditions.
