

Together we can  
make a difference.™

### **Origin4500F 5.0kW Solar System Inverter Specifications**

Your Origin4500F system will be supplied with the following inverter:

- 1 x Fronius Primo 5.0

Please note the inverter supplied with your solar system is AS4777 accredited.

Please see the following specification sheet for further details and inverter specifications.

# FRONIUS PRIMO

/ Optimised energy management.

/ SnapINverter Technology

/ Integrated data communication

/ SuperFlex Design

/ Dynamic Peak Manager

/ Smart Grid Ready

/ The Fronius Primo in power categories from 3.0 to 8.2 kW perfectly completes the new SnapINverter generation. This single-phase device is the ideal inverter for residential systems. Its innovative SuperFlex Design provides maximum flexibility in system design, while the SnapINverter mounting system makes installation and maintenance easier than ever before. The included communication package, with WLAN, energy management, several interfaces and much more, allows the Fronius Primo to communicate with the user, the PV system and the grid.

## TECHNICAL DATA FRONIUS PRIMO (3.0-1, 3.5-1, 3.6-1, 4.0-1, 4.6-1)

| INPUT DATA   | PRIMO 3.0-1 | PRIMO 3.5-1 | PRIMO 3.6-1 <sup>1)</sup> | PRIMO 4.0-1 | PRIMO 4.6-1 <sup>1)</sup> |
|--|-------------|-------------|---------------------------|-------------|---------------------------|
| Max. input current ( $I_{dc\ max\ 1} / I_{dc\ max\ 2}$ )             |             |             | 12.0 A / 12.0 A           |             |                           |
| Max. array short circuit current ( $MPP_1/MPP_2$ )                   |             |             | 18.0 A / 18.0 A           |             |                           |
| Min. input voltage ( $U_{dc\ min}$ )                                 |             |             | 80 V                      |             |                           |
| Feed-in start voltage ( $U_{dc\ start}$ )                            |             |             | 80 V                      |             |                           |
| Nominal input voltage ( $U_{dc,r}$ )                                 |             |             | 700 V                     |             |                           |
| Max. input voltage ( $U_{dc\ max}$ )                                 |             |             | 1,000 V                   |             |                           |
| Usable MPP voltage range ( $U_{mpp\ min} - U_{mpp\ max}$ )           |             |             | 80 V - 800 V              |             |                           |
| MPP voltage range at nominal power ( $U_{mpp\ min} - U_{mpp\ max}$ ) |             | 200 - 800 V |                           | 210 - 800 V | 240 - 800 V               |
| Number of MPP trackers   |             |             | 2                         |             |                           |
| Number of DC connections   |             |             | 2 + 2                     |             |                           |

| OUTPUT DATA                             | PRIMO 3.0-1                           | PRIMO 3.5-1 | PRIMO 3.6-1 <sup>1)</sup> | PRIMO 4.0-1 | PRIMO 4.6-1 <sup>1)</sup> |
|---|---------------------------------------|-------------|---------------------------|-------------|---------------------------|
| AC nominal output ( $P_{ac,r}$ )        | 3,000 W                               | 3,500 W     | 3,680 W                   | 4,000 W     | 4,600 W                   |
| Max. output power                       | 3,000 VA                              | 3,500 VA    | 3,680 VA                  | 4,000 VA    | 4,600 VA                  |
| AC output current ( $I_{ac\ nom}$ )     | 13.0 A                                | 15.2 A      | 16.0 A                    | 17.4 A      | 20.0 A                    |
| Grid connection (voltage range)         | 1 - NPE 220 V / 230 V (180 V - 270 V) |             |                           |             |                           |
| Frequency (frequency range)             | 50 Hz / 60 Hz (45 - 65 Hz)            |             |                           |             |                           |
| Total harmonic distortion               | < 5 %                                 |             |                           |             |                           |
| Power factor ( $\cos\ \varphi_{ac,r}$ ) | 0.85 - 1 ind. / cap.                  |             |                           |             |                           |

<sup>1)</sup> Also available in the light version.

/ Perfect Welding / Solar Energy / Perfect Charging

## WE HAVE THREE DIVISIONS AND ONE PASSION: SHIFTING THE LIMITS OF POSSIBILITY.

/ Whether welding technology, photovoltaics or battery charging technology – our goal is clearly defined: to be the innovation leader. With around 3,000 employees worldwide, we shift the limits of what's possible - our record of over 1,000 granted patents is testimony to this. While others progress step by step, we innovate in leaps and bounds. Just as we've always done. The responsible use of our resources forms the basis of our corporate policy.

Further information about all Fronius products and our global sales partners and representatives can be found at [www.fronius.com](http://www.fronius.com)
