

## SUNTECH POWER LIMITED WARRANTY FOR PV MODULES

Effective from January 1, 2012

**You have made the right choice by purchasing SUNTECH products with a long life time. Suntech photovoltaic modules are covered by warranty as described in detail below.-**

Suntech Standard PV Module Products covered under this warranty are:  
STPXXX(S)-YY/Zd(b)(+) (XXX = 170-320 / YY = 18, 20, 24, / Z = A, U, V, W)  
PlutoXXX-Zd(a, e, m, x) (XXX = 170-320 / Z=A, U, V, W)  
MSZXXX-J-C (XXX = 170-200)  
MSZXXX-J-D (XXX = 170-200)  
XXX is a module power rating. S/Z/d/+b/e/m/x/J/C/D defines module variants as described in corresponding product data sheet.

For the standard solar module types listed above, Wuxi Suntech Power Co., Ltd. (SUNTECH POWER) shall WARRANT its Photovoltaic Solar Modules' (MODULES) performance (i) starting from the date of sale (SALES DATE) to the first customer installing (for their own use) the MODULES (CUSTOMER) or (ii) starting at the latest 12 months after MODULES dispatch from the SUNTECH POWER factory, whichever occurs earlier (the WARRANTY START DATE).

### 1. Limited Product Warranty – Ten Years Repair, Replacement or Refund Remedy

SUNTECH POWER warrants its MODULES, including factory-assembled DC connectors and cables, if any, to be free from defect in materials and workmanship under normal application, installation, use and service conditions. If MODULES fail to conform to this warranty, during the period of One Hundred Twenty (120) months from the WARRANTY START DATE, SUNTECH POWER will, at its option, either repair or replace the product, or refund the current list price of comparable SUNTECH POWER MODULES. The repair or replacement or refund remedy shall be the sole and exclusive remedy provided under the "Limited Product Warranty" and shall not extend beyond the period set forth herein. This "Limited Product Warranty" does not warrant a specific power output, which shall be exclusively covered under clause 2 hereinafter ("Limited Peak Power Warranty").

### 2. Limited Peak Power Warranty - Limited Remedy

#### Warranted Percentages of Nominal Power Output

- 5 Year Limited Warranty of 95% of the Nominal Power Output
- 12 Year Limited Warranty of 90% of the Nominal Power Output
- 18 Year Limited Warranty of 85% of the Nominal Power Output
- 25 Year Limited Warranty of 80% of the Nominal Power Output

SUNTECH POWER warrants each Module against defects in materials and workmanship that result in the failure of the MODULES to produce the warranted percentage specified above of the nominal power output for the Module set forth in SUNTECH POWER's product datasheet. If SUNTECH POWER determines in its discretion that any Module is not providing the warranted percentage of the nominal power output because of defects in materials and workmanship, SUNTECH POWER will at its option either (1) replace such loss in power by either, (a) providing additional MODULES to the CONSUMER to make up for such loss in power or (b) replacing the defective Module(s) or part by a functional equivalent or (2) refund the percentage of the cost of the Module(s) representing the percentage of the power that is less than the warranted percentage of the nominal power.

The remedies set forth in this clause 2 shall be the sole and exclusive remedies provided under the "Limited Peak Power Warranty".

Nominal Power Output in product datasheet is the power in Watt peak that a Photovoltaic Solar Modules generates in its Maximum Power Point under Standard Testing Conditions (STC). STC are as follows:  
(a) light spectrum of AM 1.5, (b) an irradiation of 1000 W per and (c) a cell temperature of 25 degrees centigrade at right angle irradiation. The measurements are carried out in accordance with IEC 61215 as tested at the connectors or junction box terminals – as applicable – per calibration and testing standards of SUNTECH POWER valid at the date of manufacture of the PV-modules.

## Suntech Power Australia Warranty Claim Procedure

1. Consumer needs to report suspected solar photovoltaic system (PV System) fault to their original retailer/installer via email, fax or letter through contact details provided by Installer in their warranty form, tax invoice or other document and provide Installer with the proof of purchase and fault information<sup>1</sup>.
2. Installer troubleshoots the PV System to determine the source of the fault<sup>2</sup>. If the Installer identifies that the fault is caused by a defective PV Module covered under the Suntech Power's warranty, then the Installer needs to call Customer Service Team in Suntech Power Australia Pty Ltd on (02) 8188 2450 to obtain Suntech Warranty Claim Form and Warranty Case Number.
3. Installer must complete the Suntech Warranty Claim Form and send this form to Suntech Power Australia at the following address via email, fax or Australia post within a reasonable time :

Warranty Claims

Fax: (02) 8818 2440  
Email: services@suntech-power.com.au

4. If requested by Suntech Power, Installer needs to return the suspected faulty PV Module(s) to Suntech Power at 82-86 Bay Street, Botany, NSW 2019 Australia or other address as nominated by Suntech Power for testing and claim verification. For the avoidance of doubt, provision of a Warranty Case Number by Suntech Power does not imply that the warrant claim is valid. A warranty claim made under above paragraphs 2 and 3 is only valid once it has been assessed as valid by Suntech Power.
5. Suntech Power will inspect and test the returned PV Module(s) to verify the warranty claim within a reasonable period and provide a written conclusion as to the warranty claim.
  - ❖ If the returned PV Module(s) is defective and covered by warranty, Suntech Power is responsible for the following:
    - Provide replacement PV Module(s)<sup>3</sup> of equivalent or higher power for Installer to install for the consumer, or refund to consumer (or refund through Installer) based on current PV Module price (selection of remedies at Suntech's sole discretion);
    - If applicable, pay Installer fixed labour cost of \$120 for installing one PV Module, and \$60 for each additional PV Module from the same system and claim; and
    - Reimburse consumer or Installer Suntech authorised transportation cost for returning faulty PV Module(s).

---

<sup>1</sup> Where the original retailer/installer is no longer available, Consumer can contact any Clean Energy Council (CEC) certified Installer for the purpose of determining the source of fault of PV System. A CEC certified installer can be found from: <http://www.solaraccreditation.com.au/acccec/consumers/findaninstaller.html>.

<sup>2</sup> Suntech Power provides general troubleshooting guidance for PV Modules.

<sup>3</sup> Installer can obtain replacement PV Module(s) from their authorised Suntech Distributor.

- ❖ If PV Module is not-defective, or the warranty claim is not a valid claim and cannot be covered by warranty, Suntech Power shall not be liable for PV Module replacement, refund or any costs incurred by the Installer and/or consumer. The Installer/consumer may, at their cost, request Suntech to return the PV module(s) to the Installer/consumer.
