

Energy investigation

Name: _____

Use the energy saving light globes below to record your questions about energy. Display these around the classroom and fill in the answers as you discover them.

A template for a light globe with a black silhouette of the globe on the left and a white tube on the right. The tube has two sections: the top section is labeled "Q:" and has three horizontal lines for writing; the bottom section is labeled "A:" and has three horizontal lines for writing.

Q:
A:
